Organic Cotton

GOTS Certified Manufacturer

We are one of the leading GOTS Organic Certified Manufacturer & Exporter of Organic Cotton Woven Fabrics, Baby Care & Home Textile products. We are into organic cotton fabric manufacturing for the past 10 years as the buyers and people stated knowing the benefits of organic cotton and its ethical impact on farmers, environment and the society. So, we immediately adapted organic cotton into our manufacturing from greige, printed, fabric dyed and yarn dyed fabrics. And got the world's most renowned organic standard certifications for organic cotton, GOTS – Global Organic Textile Standard and Textile Exchange's, OCS – Organic Content Standard.

*Pure Organic
Indian Cotton*

Organic Cotton Facts

Cotton uses more chemicals per unit area than any other crop, accounts in total for 16% of the world's pesticides, uses 20,000 litres of water per kilogram of cotton yield and ruins the lives of the farmers trapped in cotton poverty. There are lot more reasons to move away conventional cotton to organic cotton. Organic cotton clothing looks great, feels great and has some great environmental benefits, when it's done right.

Fair Trade Organic Cotton

We are also into process and supply of 100% Fair Trade Organic Cotton Fabrics, Body Textiles, Bags and Home Textiles items. We work with organic cotton farmers producers groups who typically grow organic cotton with an aim to provide fair wages, technical knowledge, financial support, till marketing their products which ensures farming a sustainable and profitable occupation for farmers and their family.

Fair Trade Certified Company

We are proud to be certified by Fair Trade International as Fair Trade Organization by Flo Cert a global certification and verification body. Our aim is to follow Fair Trading practices in all areas of our supply chain from farmers to fashion buyers. Which is duly supported by Fair Trade certification.

OEKO-TEX Standard 100

Certified Manufacturer

Product Class I : Sri Kalyan Export Private Limited as achieved OEKO-TEX Standard 100 Product Class I for adopting and using ecological production materials, processing as per OEKO-TEX Standard for producing fabrics which can be used for Baby Care, Bedding & Garments, Home Textiles, Bags, etc., OEKO-TEX testing for harmful substances always focus on the actual use of the textile. The more intensive the skin contact of a product, the stricter the human ecological requirements to be met.

Product Class II : Textile items for babies and toddlers up to 3 years (clothing, toys, bed linens, terry cloth items, etc.,) which is the highest standard in OEKO-TEX.

SA – 8000 : 2008

Certified Company

SA – 8000 is the first Social & Ethical Standard for corporate. And we are proud to be certified and assured that Sri Kalyan Export Private Limited is operates. As per procedures and standards set by SA – 8000 which ensures workers safety, sanitation, ventilation, fair wages, no child labour, fire safety standards, good water facility, CCTV surveillance, good working conditions are met in factory and office. The social working standards are maintained as per rules and regulations of Indian Labour Law and International Labour Organization (ILO) & Social Accountability Accreditation Services. And we are also engaged in various social activities in creating awareness about tree planting, rain water harvesting, organic farming, child labour, fair trade practices, etc., So as a social corporate company we ensure quality products and quality work life & social life is met as per buyer requirements.

Organic Reactive Yarn Dyeing Process

In Organic Reactive Yarn Dyeing, the yarns are first dyed before the fabric manufacturing stage. The yarn dyeing happens in hanks or in package dyeing. Package dyeing is a method where yarns are wound on perforated cones placed in a dye vessel. The dye solution is then alternatively pushed inside out and vice versa.

Yarn & Sizing

SKE sources Organic cotton, Linen, Lyocell, Viscose, Lenzing Modal, Bamboo, Hemp, Lurex, Elastane, Recycled Cotton, Flax and Non Organic Cotton yarns from reputed spinning mills in Tamil Nadu and South India, in various counts ranging from 4's to 100's. The weaving preparatory unit of SKE is equipped with state of the art machineries that include four automatic warping machines and two multi-cylinder sizing machines to feed warp to in house weaving and as well as for vendor operations.

Weaving

The weaving unit of SKE is installed with state of the art brand new Electronic Dobby Rapier and Air Jet weaving machines with working width upto 180 Cms. The production output per/day around 25,000 Mtrs in various weaves like satin, twill, drill, dobby, plain, oxford and customized Designs, SKE works with many dedicated contract weaving units through which around 30,000 Mtrs/Day will be the production output.

Printing

We can handle all kinds of printing like Reactive, Pigment, Discharge, Disperse and Gadi on various base fabrics like 100% cotton, viscose, linen etc., the production output is 30,000 mtrs/day.

Finishing Process

Textile finishing process as applied to bulk Fabrics or Garments followed by comprising of Washing, Bleaching, Dyeing and Coating, and/or production of synthetic materials. These are Energy-Intensive and use large amounts of water that is generally discharged as effluent.

Quality Inspection

Quality is what our company is known for. Our quality inspection team consists of experienced professionals to monitor quality online and at the final stage. We work with ASTM 4 - point system for Fabrics and AQL 2.5 standards for Made-ups

CMIA : Certified from 2019

We have been certified with CMIA - Cotton Made in Africa which is one of the sustainable cotton which harvested through rain harvesting methods which highly appreciated as it saves lot of ground water and river water.

ISO : Certified for Quality & Environment

ISO 9001 : 2015 International Quality Management System

ISO 14001 : 2015 Environment Management System

As an young energetic team we are constantly updating our ethical business practices / sustainable textile solutions / social and environment activities / women empowerment etc., which benefits our society / customers and the world for ensuring clean / green land for our coming generations.

SUSTAINABLE FABRICS

Our collections are made from organic, renewable, biodegradable and regenerated fibre. Entirely committed to fair trade production, we design with longevity in mind.

ORGANIC COTTON

All our cotton is certified organic by the National Programme for Organic Production (NPOP). The versatility of organic cotton is the basis of our collections.

LYOCELL

We use Tencel/Excell, a biodegradable fibre made using wood pulp from Forest Stewardship Council (FSC) certified forests. Our Tencel is produced within a closed loop, which re-circulated all over water used in manufacture.

ETHICALLY MADE

Sri Kalyan Export Private Limited are certified by non-profit internationally recognised organisation. With independent audits and accreditation bodies, we support fair wages, no child labour, workers rights, gender equality & grower communities.

FAIR TRADE

All our cotton suppliers and manufactures are certified by Fair Trade Labeling Organisations International (FLO) in India. Fair Trade empowers farmers to negotiate with buyers to secure better prices for their cotton. Every season, certified farmer groups receive a premium to be spent on community projects.

SAFE WORK PLACES

Our Fabrics, Garments, Home Textile & Cotton Bag is certified with SA-8000 and Sedex (SMETA). The SA-8000 Standards encourages clothing manufacturers to develop, maintain and apply socially acceptable practice in the workplace. SA-8000 organisation are audited by certifications bodies accredited by Social Accountability Accreditation Service (SAAS).

ETHICAL TREATMENT OF ANIMALS

Farmers commit to the highest grade of animal welfare, environmental care and social responsibility. This includes commitment to no mulesing and basic freedom as described in the Animal Welfare Act 1999 and the Animal Welfare 2010.

ENVIRONMENTAL PRACTICES

As a manufacturer, we are accountable for the entire lifetime of a garment. We are committed to designing beautiful ethical and sustainable collections and will continue to find ways in which we can develop and innovate our clothing without costing the earth.

ORGANIC COTTON FARMING

Organic farming is achieved through companion planting, corporations and onsite green waste composting, which helps to preserve the entire Ecosystem. Crops are exclusively rain fed and hand picked several time during the season. Our cotton is grown from non genetically modified seeds and organically farmed without harmful chemicals.

ENVIRONMENTAL FRIENDLY DYES & WASHES

Our organic cotton is processed using Global Organic Textile Standard (GOTS) approved inks and dyes, which are free from chlorine bleach, toxic heavy metals, formaldehyde and aromatic solvents. We use GOTS approved washed for our organic fabrics from light weight voile to heavy canvas.

All our fabrics from organic cotton, plant fibre fabrics, sustainable fabrics is processed and dyed with low impact, heavy metal free dyes to ensure skin friendly and environment friendly for the planet.

These processes ensure sustainable use and treatment of water.
